Ken,

Paige mentioned she was at a dentist appointment when I spoke to her earlier, so I am unsure whether you were able to connect with her. Given the urgency of this matter, I am addressing you directly with Paige CC'd.

I have several substantial payments that are now past due and must be made immediately. I relied on the terms of our settlement agreement which made it clear that the insurance proceeds would be issued within 30 days. That deadline has now passed, and I have not received the funds. Had I been aware of any delay, I would have never agreed to these terms.

If I am unable to make the required payment to my Lender (or at minimum provide a definitive and imminent timeframe for receipt of the settlement funds in the next few hours), I will lose a multi-million dollar asset solely due to the delay in receiving the settlement funds. While I would prefer to resolve this without further court intervention, I will have no choice but to instruct my counsel to seek relief from the court on an emergency basis and pursue all appropriate remedies for breach of the agreement. I hope we can avoid this.

Can you let me know immediately when the check will be available for pickup? If a wire transfer is faster, I can receive the funds that way today. A prompt response is required or we will have to proceed accordingly.

Please help.
